*GRP (GLASS REINFORCED PLASTIC)

Our exclusive Air Hull ® formed by Reverse U Chines Hull design greatly adds to the boat's sea-keeping, guaranteeing your boat will out-perform any other boat with precise turning capabilities, inherent lift and the ability to navigate in more extreme sea conditions.

The design of the hull also offers a vastly improved wave deflection resulting in a much drier ride.

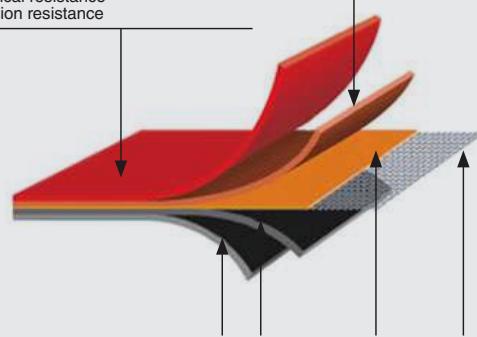

**HYPALON COLLAR

ASIS uses the finest quality material to manufacture and produce all of its products. Only Hypalon™ is used in the manufacture of the ASIS tube.

Outside CSM layer gives:

- > weather resistance - fading and ageing
- > chemical resistance
- > abrasion resistance

Layer of Neoprene in between the CSM and the textile.

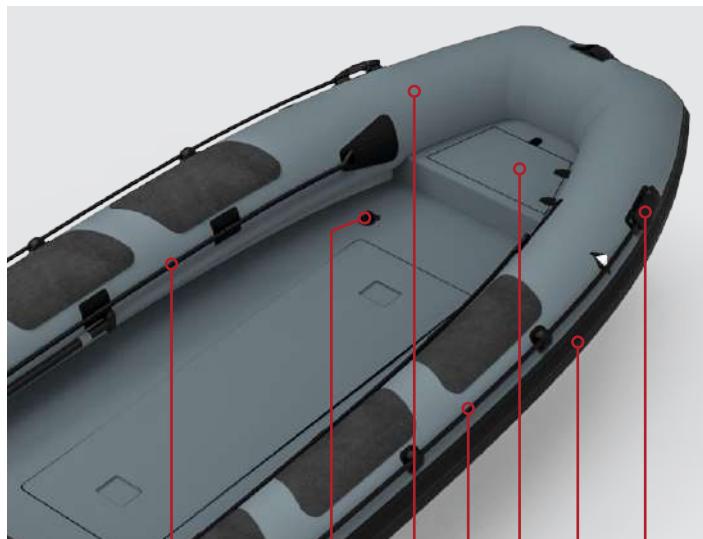

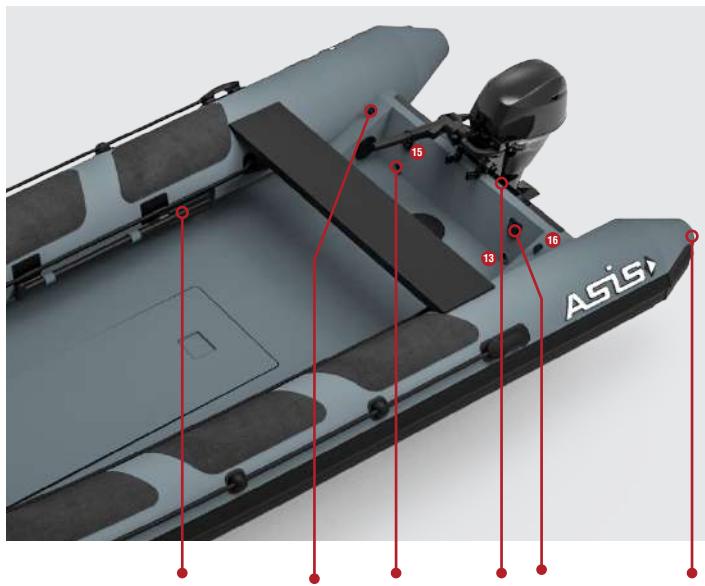

Inside Neoprene sheets give:

- > high glubility and reliable adhesion
- > air tightness (no air in the high textile)

High Tenacity Textile give:

- > basic mechanical properties (tensile and tear strengths)
- > dimensional stability
